

*"Outsourcing to MediQuin has proven to be the best decision for our practice. My staff can now concentrate on the growth of our practice."*

Claire Biggins, CEO  
Pulmonary Consultants & Primary Care  
Physicians Medical Group, Inc.

*"MediQuin's service of automated credentialing is so valuable. Their persistence and knowledge of the process is incredible. I highly recommend them to any busy physician or office."*

Sean Pormir, M.D.  
Medical Director from Kern County

Today's medical provider faces many pressures in the healthcare environment including staffing, decreasing budgets, and increasing workloads. Many practices are striving to find ways to increase efficiency while strengthening their bottom line. Imagine reducing the administrative costs associated with details such as credentialing. Outsourcing to MediQuin Credentialing Services will allow your focus to remain on increasing productivity and profitability!

## Our Clients

Servicing physicians, practitioners, hospitals, IPAs and health plans nationwide. MediQuin is dedicated to increasing the productivity and profitability of your practice. Our management service assures that you won't miss an important licensing or filing deadline!

## Benefits for Physicians, Practitioners and Office Staff

MediQuin Credentialing Services, Inc. provides an effective business solution by assisting with your licensing and certification activities. We will alleviate your organization of credentialing administrative tasks, leaving you able to devote more time to your practice.

## About MediQuin

The heart of our business is our state-of-the-art data management and processing automation system. Utilizing the latest technology and security protection, our staff's 20 years of experience will prove beneficial as a complement to your present office staff.

## Customized Pricing

MediQuin's goal is to complete the application process quickly and efficiently. We have the resources and technology to get the job done fast, efficiently, and economically. We will customize a credentialing package for you based on your individual requirements and our flexible solutions.

## Speed

Reduces the processing time by managing multiple credentialing applications and updates.

## Cost

Utilizing MediQuin Credentialing Services reduces processing and administrative costs by utilizing our proprietary process of form automation.

## Accuracy

The quality of the information supplied is improved, as it comes from a single point of contact for both providers and organizations.

## Efficiency

Deadlines are met and optimal efficiency is achieved with our dependable service.

## Communication

You are always kept informed of the application status as it is being credentialed. A tracking report can be produced for each physician at any time during the credentialing process.
